

Checking Account

Read Aloud Activity

It is Saturday morning, and Mr. Nguyen is at the bank. He is withdrawing \$50 from his checking account.

Mr. Nguyen needs cash because he is going to the swap meet with his wife. They are going to buy some T-shirts and pillows. The sellers at the swap meet don't take credit cards, debit cards, or checks. They only take cash.

After the Nguyens finish shopping, they are going to Tony's Steak House. Mr. Nguyen will use his debit card to pay for lunch. A debit card allows customers to pay for purchases without using cash.
